

Creation of Persistent Links **Chicago Manual of Style Online**

Persistent links direct students to specific full-text journal documents found in our research databases. These links are stable, and can be accessed from both on and off campus. These links could be used for e-reserves, electronic reading lists or incorporating into Brightspace and other online course resources.

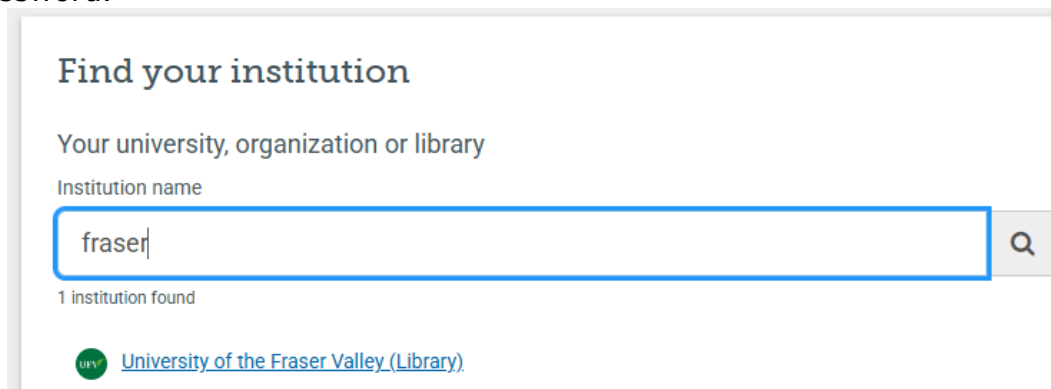

1. Find the entry you want to link to. Copy the URL from the address bar

The persistent link will look like this:

<https://www-chicagomanualofstyle-org.eu1.proxy.openathens.net/book/ed18/part3/ch14/psec010.html>

2. If you see **proxy.openathens.net** in the URL you do not need to modify the link at all. You just need to tell your students to click on the link, search by institution using Fraser and login using their MyClass username and password.

The screenshot shows a search form titled 'Find your institution'. Below the title is the text 'Your university, organization or library'. The form has a label 'Institution name' and a text input field containing 'fraser'. A search button with a magnifying glass icon is to the right of the input field. Below the input field, it says '1 institution found'. At the bottom, there is a green circular logo with 'UFV' and the text 'University of the Fraser Valley (Library)'.
