

Persistent links direct students to specific full-text journal documents found in our research databases. These links are stable, and can be accessed from both on and off campus. These links could be used for e-reserves, electronic reading lists or incorporating into Blackboard and other online course resources.

1. Find the item you want to link to. Click on "get link".

The screenshot shows a search results page for the article "ENEMY ALIENS" AND "CONCHIES": Perceptions of the "Un-British" in the Fraser Valley, 1939-45. The "Get Link" button is highlighted with a red box. Below the title, there are three circular icons: a pencil for authors (R. Scott Sheffield and Kelsey Siemens, Date: Spring 2021), a book icon for publisher (BC Studies (Issue 209), Publisher: The University of British Columbia - BC Studies), and an information icon for document type (Article, Length: 9,544 words).

2. A pop-up window will appear. Select.

The screenshot shows a pop-up window titled "GET LINK" with a close button in the top right corner. The text inside the window says "Use this link to get back to this page." Below this text is a text box containing the URL: <https://link.gale.com/apps/doc/A662078086/AONE?u=abbo55004&sid=bookmark-AONE&xid=dfb64c55>. To the right of the text box is a blue button with the word "Select" in white text.

The persistent link will look like this:

<https://link.gale.com/apps/doc/A662078086/AONE?u=abbo55004&sid=bookmark-AONE&xid=dfb64c55>

**Please note** that this URL will redirect to our login page anyway for easy off campus access.
