

Persistent links direct students to specific full-text journal documents found in our research databases. These links are stable, and can be accessed from both on and off campus. These links could be used for e-reserves, electronic reading lists or incorporating into Brightspace and other online course resources.

1. Find the entry you want to link to. Copy the URL from the address bar.

The persistent link will look like this:

<https://sacda.ca/exhibits/km/index.php>

As the content is free available there is no need to redirect this through UFV.

Do remember, however, that urls can change at any time.
